END OF THIS SALE

## THE HOT AIR PAGE

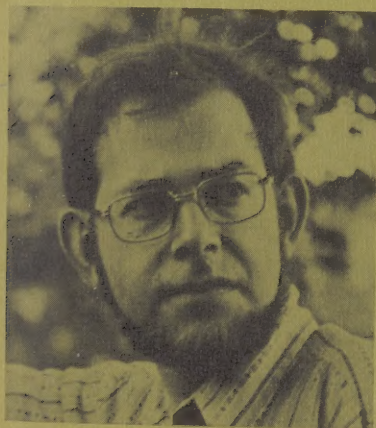

We are pleased to present this catalog to our many mail bidders. We are also pleased to offer this sale in conjunction with the First Greater Pittsburgh International Coin Exposition. While this is a floor auction, we want to encourage our mail bidders not to be disheartened. In a combination floor auction mail bid sale, mail bidders frequently drop significantly. However, if you bid competitively, it is quite likely that your bids will be successful. Floor bids are mainly submitted by dealers buying for resale stock and/or the chance lots mail bidders overlooked. If you are an advanced or serious collector, I believe you will be able to compete successfully against the floor bidders.

For those of you attending this convention, I would like to welcome you personally. We feel the time has come for the "idea" to hold major International Coin Conventions in other areas of the country outside of California and New York. The Chicago International Coin Fair was a tremendous success. Every dealer we talked to who had a table at this convention assured us that they would want one next year. It is sometimes difficult for new conventions to receive acceptance prior to the show date. This was even true for the first COIN. After the fact, there are dealers who want reservations for the following convention and find that the waiting list not only is long but their chance for a bourse table is nil. Time will tell what sort of public and dealer acceptance this convention and other new international conventions will have.

The OIN Counterfeit Detection Seminar is being held in conjunction with this coin show. I highly recommend attending one of these seminars if you can. You must pre-register if you want to attend. Not a week goes by that we don't receive some counterfeit coins in consignments. This is true of most auction houses. Our function as a cataloger is in part that of a "Gate Keeper" which we try our utmost to maintain and in fact have maintained with the exception of a few exotic disceptions.

This catalog offers an unusual section of coins from Ireland and various African countries. Scattered throughout the sale are many patterns and essays from all over the world. The medals section is extensive and offers one of the best selections of Papal Medals to appear on the market for some time. Due to late consignments, some choice Canadian lots are also offered in the Miscellaneous section. Our largest offering to date of U.S. Colonial coins appears in this sale.

Our next sales are scheduled for early September and December. Consignment material for the fall sale should be in our hands before August. We are expecting to offer nice selections of material including English hammered coinage, ancient coinage, German and Austrian talers, Canadian, Russian, Polish and Scandinavian coins. We do expect to offer another wide range of medals, patterns, and perhaps paper money. It is quite possible that these sales may be a combination mail bid and floor bid, to be held in the Lansing area.
